GREAT IMPROVEMENT IN
Planing, Tonguing, and
Grooving Lumber.

JOSEPH P WOODBURY'S
Patent Planing Machine.

THE subscriber having received Letters Patent for a stationary Cutter, Planing, Tongueing and Grooving Machine, now offers for sale Machines and Rights to use the same. This machine will plane 6 000 feet of board to any uniform thickness in one hour, leaving a better finished surface than it is possible to plane by any other means now known not excepting the hand plane and is peculiarly adapted to plane and joint clapboards, or weather boarding and will do the work faster and better than any machine heretofore invented. This machine is so arranged that it planes the board with an unbroken shaving the whole width and length of the material and does not take more than two thirds the power that is required to do an equal amount of work by the Rotary Cutting Cylinder now in common use. The construction and organization of this machine is different from any other now in use. Communications for further particulars cheerfully responded to by addressing the subscriber (post paid) Boston Mass

One of the above Planing Machines may be seen in operation by calling on the Patentee

Another Life Saved.

Read the following letter from a Clergyman of Camden Me, to the Editor of the Gospel Banner—

DOWN'S ELIXIR,—A CURE.

BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity I wish to state through the Banner that in my sickness last winter and spring I received very great benefit from the use of N H DOWN'S ELIXIR

I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding which created a dry, hard cough. My appetite failed. my strength wasted, and my flesh disappeared. Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it, and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of physic necessary and then counteracting the very organs that should be relaxed. I used other kinds of patent medicines but with no good effect. Seven weeks I continued gradually to sink under my disease at the expiration of which time, I was extremely weak, my skin dry and husky, and my feet and hands cold most of the time. I had a dull, heavy pain between my shoulders, and a distressing pain at the pit of my stomach. My tongue was coated with a thick white fur, bowels very irregular and costive, hectic fever, night sweats, dry hard cough, difficulty of breathing and low spirits. My stomach at this time was so sore and weak, that it was with difficulty I could stand erect. This was my situation when I commenced the use of N H DOWN'S ELIXIR.—And to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels, equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks which entirely removed the soreness and weakness from my stomach gave me a good appetite and greatly improved my strength. I continued its use six weeks, using six bottles at which time I was able to resume my ministerial labors. I have since recommended it to a large number and have never known it to fail of doing good where the directions were followed

I have given it to my children in colds, and in a case of measles and it has proved ALL IT IS recommended to be.

I therefore cheerfully recommend N H DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J L TUTTLE

Camden, August, 1849

Facts deduced from the foregoing letter

1st Down's Elixir is laxative—curing costiveness while other medicine increases that difficulty

2d It is a perspirant. It equalises the circulation—restores a healthy moisture to the skin, and vigor and tone to the system

3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system

4th It cures colds—is an effectual remedy for the measles, and proves ALL IT IS RECOMMENDED TO BE

It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE, G W LADD, CURTIS & PERKINS A P GUILD WM MANN, G McFARLAND Bangor, L S Smith J W Curtis & Co, Hampden, Chas Johnson, J B Chick Frankfort H P Fifield Bucksport, J Hooper Jr S P Hatch & Co Castine B Nourse Geo Parcher Ellsworth, L P Butler & Co Orono, J & R Fisk, H & J Y Richardson Oldtown, Wm O Poor, Belfast, Chas A Macomber R T Slocomb East Thomaston

Holden's Alterative and
TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach and giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood

Its action is that of a mild Alterative and Tonic restoring health and strength often without producing any sensible evacuation, and without leaving behind any unpleasant effect on the constitution

By its use the appetite becomes regular and good digestion perfect sick headache and many nervous disturbances growing out of an imperfect digestion are generally cured persons of debilitated constitutions become healthy and strong by its use

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former even when the ordinary symptoms of Dyspepsia are wanting and are cured by this medicine

Many troublesome children, supposed to arise from worms are caused by a deranged state of the stomach and are removed by its use. Persons both adults and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it

It contains no poisonous ingredient, and cannot in any case do harm

Home Testimony

We, the undersigned have ourselves or in our families used Holden's Alterative and Tonic Mixture and are satisfied it is a very valuable preparation for the cases for which it is recommended.

AGENCY FOR BUSINESS
With U S. Patent Office
WASHINGTON
NO 22 STATE STREET, BOSTON.

IN 1840 the subscriber was appointed by the Commissioner of Patents Agent of the U S Patent Office, in accordance with the 10th Sec of Act of '37

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office where by a Patent may be procured about six weeks earlier, he continues to forward them free of expense—to prepare Caveats Specifications Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions and of consulting in respect to them, matters, in general of paramount importance in order to obtain correct specifications and claims. The experience of sixteen years practice an extensive collection of rare works decisions &c on mechanical subjects the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment

R H EDDY Solicitor of Patents

WASHINGTON, JULY 21, 1848.—During the time I occupied the Office of Commissioner of Patents R H EDDY Esq, of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

DR PEARSON'S
CARMINATIVE BALSAM.

Great Cholera Preventive.

THIS article should be in the possession of every person travelling. It has never been known to fail of producing the happiest results in cases of Cholera Morbus Diarrhoea, &c and has during the prevalence of the CHOLERA in this country been performing wonderful Cures—though it is recommended more particularly as a PREVENTIVE but is useful in any stage of the complaint. If taken immediately upon the appearance of the Diarrhoea—which is a premonitory symptom of Cholera—an attack of this fearful and fatal disease may be prevented. In Cholera Morbus and Summer Complaints of children it has no equal. Dr P has made use of this remedy in his practice for near 10 years with the most remarkable success. Price only 25 cents per bottle

It is decidedly the most beneficial remedy for the cure of Dysentery Cholera Morbus and Summer Complaint that is known to man. Parents will find it the best medicine that can be used for young children and infants. And every person who is travelling in the summer season should not be without a bottle of it in their possession, as it is an infallible remedy against the change produced in the system by drinking bad water

We annex the following certificate of Mrs A M Sanford of New York in reference to the Carminative Balsam. We might add a long list, but consider this sufficient

This is to certify that I have used Dr Pearson's Carminative Balsam and confidently believe it to be the best medicine that can be used for the various diseases for which it is recommended it to all ladies who are travelling in the summer months, and mothers for the fretting and crying of infants for which it is a certain cure

SATURDAY, NOVEMBER 3, 1849.

☞It was [illegible] probably to determine upon the prospects of money, trade and business for the future than at the present time The large amount of enterprise and capital already embarked for California, and the increasing amounts that from every part of our country are being drawn into it, not only affects present operations at home, but throws a doubt over the whole business operations of the country for the future Should this California speculation prove disastrous, as many now seriously suppose it must, and the bubble burst and the general mass of the property now absorbed in it be lost by depreciation, there will be such a revulsion in business as has never been witnessed in modern times, and an amount of suffering not easily to be measured

It is estimated that at the present moment shipping to the value of about four millions dollars is lying idle in the harbors of San Francisco, and will have to be sold at a great discount, or got away at a sacrifice of the profits of years The loss upon the millions of dollars worth of goods sent there will be, it is estimated, at full one half of their cost And yet rolling in, with almost every wave of the Pacific, are other ships, and goods, and men, to swell these amounts and, perhaps, increase the losses

Is there gold enough to be had by human efforts to pay for the labor of collecting it, and make up for these sacrifices in property there, and the sacrifices, and depreciations, and disturbance of business at home? If so, then the problem is understood. But of this there is no certainty, and judging from what is known of the gold digging for the year past, there is great reason to doubt this It seems to us that the amount already embarked—the number who have gone from the Atlantic States and every consideration bearing upon the subject should cause men to pause and consider, and obtain further advices before rushing headlong into a speculation which if disastrous, will be fatally so to many good men As a further caution—for it cannot but be safe and proper now to interpose a caution against the increasing rush into this speculation,—we would remind our readers that the next two or three steamers which are to arrive from California will bring the gold from the harvest-field of the whole year The amounts ought to be very large, even for a moderate per centage of the money and goods already sent and consumed No one then should allow himself to be excited if the three or four steamers which shall next arrive bring several millions of dollars in gold

The reasons assigned for those tempted to go to California to wait awhile operate with more or less force upon all who are planning business for another year, to act with prudence

There is one fact pretty well established, that the lumber yards throughout the entire Atlantic States have now short stocks, and there is nowhere a full supply, so that the prospect for lumbering, especially for sound good lumber, is quite flattering

☞The Belfast Signal appears upon new type, and makes a very handsome appearance Our own reading columns for nearly a week have been improved by new type of much beauty from the Boston Type and Stereotype Foundry which *shoots* ahead of anything in New England in the way of getting up Printers materials Our weekly Courier will appear in a dress suiting it to the company of those who have recently laid aside the old type for the new with its fair handsome shoulders and clear surface By the by, this getting new type costs a bit, and while we are striving to please our readers we hope they may be induced to please us

☞The Bark Cantero owned and freighted by the company who man and manage her, sailed from this city on Thursday for California She takes out altogether the most reliable and substantial class of men that have ever embarked in this California enterprize It is hard to part with such men as compose this company but as they are gone we cannot but greatly desire that they may be eminently successful in amassing fortunes equal to their wishes, and then have the disposition to return and dwell here in the bosom of their friends

In the selection of candidates to represent the city of Boston in the legislature, the Whigs have taken great pains to have the mechanical, mercantile, professional and philanthropic interests of the community [illegible] represented It is this careful regard of the [illegible] sub-divisions of society and an open and manly acknowledgement of the claims of each by the Whig party of Boston that the Whig party there is invincible.

The Newburyport Herald in speaking of the large amount of shipping lying idle at San Francisco says it cannot involve a greater loss to the owners by lying there until wages come down to the Atlantic rates, than does that portion of it at home, in carrying cargoes at the rate of freights, which have prevailed for the last six months

The second sermon of a series, now in course of delivery will be delivered by Rev Mr Nye, to-morrow afternoon at his church

Topic—Reasons for rejecting the doctrine of Eternal Punishment.

Lecture, in the evening, upon the Arguments usually adduced to sustain the doctrine of Eternal Punishment.

Four vessels left Boston on Wednesday last for California taking [illegible] aggregate of four hundred passengers and [illegible] them only three women. Th[illegible] [illegible] from Providence R.I. for California [illegible] Two vessels from Newport R. I [illegible] hundred and twenty-eight passengers

☞The Belfast Journal states that the attendance upon the Teachers Institute in that county was very small This is greatly to be regretted, but we trust [illegible] may not be said of the Institute for this county which meets [illegible]

A Baltimore firm has made arrangements to send out a party of Chesapeake fishermen well supplied with boats and nets to follow their occupation on San Francisco Bay and Sacramento River Both these waters abound with fish but there [illegible] hands to catch them

☞The Students at Charlston Academy propose giving a grand exhibition in the Academy Hall on Friday evening 9th inst Their bill of fare promises a fine intellectual treat and mirth provoking entertainment.

We would direct attention to the notice of Fessenden's Writing Academy to be found in another column He is diligent in his calling and opens and smooths a cramped and harsh hand writing in a very short time

Cold weather begins to put forth some premonitory symptoms of approach This should counsel all to make the necessary preparations to repair out-buildings secure cellars, and make all snug and comfortable for winter

Gen Shields was again nominated for the U. S Senate by a caucus of the Democratic members of the Illinois Legislature, 27th ult. He was nominated on the 21st ballot, by a majority of four.

Charles King Esq, one of the editors of the N. Y Courier and Enquirer, has retired from the management of that paper, and from the toils of an editorial career He has been connected with the public press for thirty years

The Rev Br Bushell, of Hartford, who was arraigned before a committee of five clerical gentlemen, for promulgating error touching the fundamental principles of his church, has been acquitted.

THE NICARAGUA DIFFICULTY—As fast as one dark cloud leaves the political horizon, another of portentous size and threatening aspect appears in the opposite heaven The Poussin tempest has just blown over, and glimpses of a serene sky are beginning to appear, when the Musquito question seriously engrosses the attention of the cabinets of the United States and of St. James The croakers and men who are prone to look upon the dark side of things, discern nothing but war in the horizon. Like the followers of Æneas in all their omens they see "wars, horrid wars." But there will be no war between the United States and Great Britain 'Tis not the fashion of the age Highly civilized powers settle by arbitration what once was decided by the steel. The tongue, unruly member as it is, now saves the life blood, and peace follows its smooth and convincing accent Besides, England has too much to do, to embroil herself in the affairs of the Western world She has enough to do at home She is too intent in watching the situation of things around her She has besides her own disaffected population an enormous debt to cripple her resources But to the Nicaragua dispute

The difficulty appears to have arisen from the importance attached to the project of the establishment of a canal between the Atlantic and Pacific oceans It seems there is a dispute between the State of Nicaragua and of Musquito as to territory, both claiming the exclusive navigation of the river San Juan, which is an inlet to the most practicable line of water communication to the Isthmus The British say that for years they have taken the Musquito king under their protection, and the Nicaraguan government has been threatened with serious consequences, if they in any way interfered with the rights of the people of the port of San Juan.

Now the Nicaraguans have endeavored to gain the influence of the United States by conceding the right of passage to its citizens, hoping to be able to back up their pretensions by securing the aid of a powerful nation The American people thought that they ought not to have the monopoly of such a canal and they think they see the object of Great Britain in her adhesion to Musquito

An American agent has actually been despatched to Washington to settle, first the right of sovereignty of Nicaragua over the territory through which the canal may pass and secondly, the neutrality and freedom of transit essential to the public utility of the undertaking It seems that cupidity actuates the parties which lay claims to San Juan They are aware of the value of the navigation of San Juan to the nations of both continents, and they both claim it Both have their coadjutors, and they hope to get their own pockets well lined, and to leave the quarrel to the United States and England.

But there is no doubt that the matter will be so adjusted that the Nicaraguan route will be equally open to all Nations

It is known that Mr Rives, after he left this country proceeded at once to London instead of Paris, the object of his route, and had an interview with Lord Palmerston The result of this interview has not been communicated. It is conjectured, however that the matter has been satisfactorily adjusted, There seems to have been great neglect on the part of Mr. Bancroft, who allowed this difficulty to remain unsettled, and it would, in our opinion have been good ground for his recall. W.

Present Alarming state of Morals.

To the Editor of the Whig & Courier —

I noticed your remarks in the Whig and Courier a few days since, in relation to sympathy and crime and was highly pleased with your sentiments I fear there is too much sympathy with the criminal at the present time in this State. A class of people are so charitable, that they would rather ten guilty persons should escape than that one should be punished And this class in some way have so influenced the public mind, that if one expresses in strong terms detestation of the criminal and a wish that the punishment might be adequate to the crime, he is too often rebuked for his inhumanity and told that he may speak as severely of the crime as he pleases but the offender—poor fellow—he is not much to blame! And his bad education—his too yielding nature—want, or some extenuating circumstance, is adduced to satisfy you that he should be leniently dealt with

It is hinted that some young men have been engaged in the commission of crimes in this city within the past few weeks, the punishment for which is hard labor in the State prison, and that from sympathy for them, or pity for their families or for reward, the matter has been hushed up and the scoundrels are still permitted to run at large, to the annoyance of the people, and the nightly alarm of families who have heretofore been accustomed to retire at night with feelings of security *Is this so?* This question should be answered—the community requires it. *Is it so?* If it be, the indignation of the community should be visited upon all officers concerned in it.

We have no safeguards save a healthy moral tone in the community, and a trustworthy police. Assurance that punishment is to be certain, is the only death-blow to crime Better, far better, is it for community—for parent, for child, that the offender should be punished. If the parent by his over indulgence has permitted the child to grow up a villian, he, as well as the child, should be punished for his indifference to his obligation to his family and society And the child should now be taught—what he has not been taught—that there is a retribution for disregard of the law and violation of the rights of others A few examples would soon do away the fears which now prevail in relation to public safety

But a trustworthy police cannot be had unless watched, and scrutinized If they make a compromise of crime for money—or for any other consideration, they deserve no longer to serve the public Conservators of public safety should be above temptation The people should ever feel that they are in reality protected by the men they employ to protect them.

Now I say, that if there has been any compromise of crimes recently in this city, by officers who had it in their power to bring the criminals to justice, it should be known, and these officers should be dishonorably discharged from the public service A CITIZEN

The American Bible Society has appropriated $5,000 for printing a version of the Scripture for the Americans in Turkey The edition will consist of 4,000 copies, and will cost $16,000

The German population in the United States is increasing with great rapidity. They number at the present time about two millions. In the city of New York alone there are sixty thousand.

The shop of J Beals & Co in Stoughton, Mass, was broken open on Monday night, and robbed of goods to the value of $500

FARMING IN AROOSTOOK —We give below a short account of what has been done, and may be done again, in farming, in this section of the world, by those who understand the business, and go into it right It was furnished us by a gentleman who takes much interest in such matters, in the hope it might in some degree serve to allay the Wisconsin and California fever which is raging so violently at this time It shows conclusively that any person who is desirous or expects, to get his living by farming, needs not go to Wisconsin, or any other part of the world, for soil, or climate, and many who are going to California in the fond hope of realizing a fortune, and of course, happiness, might find it nearer home if they were to seek it in the way prescribed by the good Book

"As I was passing through the town of Hogdon, county of Aroostook a few days since, I called on Mr Walton, who took me over his farm, and showed me 31,000 apple trees of various ages, from one year old to trees bearing fruit. The seed from which these trees are growing were procured in Massachusetts, and a large proportion of them were grafted from trees bearing the choicest fruit. He finds a market for large numbers of them in the western part of this State and Massachusetts, and round that region. He has almost every variety of the plum tree. He has also crab apples, peach trees, walnut trees, butternut trees, cherry trees, chesnut trees, grape vines, and white oaks

Last Spring he had ten hives of bees He has now twenty, containing nearly one ton of excellent honey, besides having taken off 100 pounds of box honey, on this article he has taken the premium for several years past He sells it at 13 1-2 cents per lb, at which rate the honey alone is worth $600 His hives he values at $10 apiece He made last Spring 400 lbs of maple sugar, part of which was refined, and was equal to loaf sugar in whiteness and sweetness This year he has raised 200 bushels of buckwheat, and from 2 to 3 years breadstuff Mr W is a very industrious and intelligent man, and his wife is an intelligent and lady-like woman, and a most excellent housekeeper

The inside of the house will compare favorably with the order and neatness of the husband's nursery and garden, which far exceeds anything of the kind to be found in this Eastern country. Mrs W made during the past Summer 36 cheeses of excellent quality, and a large quantity of excellent butter On the 4th of July last she hived, with her own hands, 4 swarms of bees, her husband being absent. She does all her own work with her own hands, keeping no hired help. Her husband follows her example in this respect, as he carries on his farm without hired help I am told he killed last Winter five fine Moose"

Who will go to Wisconsin to get a living by farming when it can be done so near home?—And the money it takes to land a man and his family in Wisconsin, would almost, if not quite, purchase land enough to make a farm of in Aroostook county, and help to stock it.—Calais Advertiser.

"CONSTRUCTIVE MILEAGE"—This subject, an old sore in Congress, it would seem has been re opened. The custom is, every four years, on the advent of every new administration, for the Senate to charge full mileage for attendance at the special Executive Session of that body, in addition to the amount received for the regular session By a recent decision of Mr. Whittlesey, the practice is likely to be resisted and probably abandoned. A Washington correspondent of the Courier says

"A claim came up in usual form, for $40,000, paid by A Dickens, Esq Clerk of the Senate, for "constructive mileage in attendance at the special Executive Session in March last, and that every member of the Senate, save three, received pay Who those three are, I have not learned, further than that Gen Cass is one Mr. Whittlesey, after full deliberation, was of opinion that the claim ought not to be allowed. Fearing however, that the Administration might regard this as an inopportune occasion for such action as might displease the Senate, he stated the case to the President, through Mr Clayton, and added the remark that, if it was not thought proper to act in accordance with his (Mr W's) convictions, he would resign the Comptrollership The President's prompt and characteristic reply was, 'Tell Mr Whittlesey to do what is right and let the consequences take care of themselves The claim was immediately rejected

"Mr Dickens has his remedy against the honorable Senators, and it is to be hoped that they will immediately make restitution"

We doubt whether Mr D has this remedy The custom of allowing constructive mileage, though unequal and unjust has all the sanction of long usage and general acquiescence —The money, too, we apprehend, if sought for would be found *non est inventus*, for Senators generally, are not so over loaded with money as to be able to refund $40,000 But they would be as little able as willing

We doubt also if the Administration through Mr Whittlesey or the President can have any control of this matter So much money is appropriated at each session of Congress in the General Appropriation Bill, for the mileage and per diem of the Senate, and the Secretary of the Senate, is the custodian of this money But even if the Comptroller, could regulate this item of appropriation, there is a 'Contingent Fund' always under the control of the Senate, and from this they can pay themselves the usual 'constructive mileage

What ought to be done, however and what perhaps the Comptroller may have power, backed by the administration to compel Congress to do, is "to show its hand' and insert forty thousand dollars for the constructive mileage of Senators We apprehend the practice would not long survive one or two scorching debates upon such an item in the General Bill

The correspondent of the Courier says above, that Gen Cass was one of the three, who did not draw "constructive mileage" There is a good reason for this, in the fact, that Gen Cass did not take his seat in the Senate until the very last hours of the session of the 3d of March He drew his pay from Detroit to Washington and back for one week's service he performed, and that was quite enough for one man to draw, and as his predecessor had voted the same day, he would probably have been allowed no more —[N. Y. Express

Reasons for Risibility

BY OLIVER WENDELL HOLMES.

Sweet Coz! I'm happy when I can,
I'm merry while I may,
For life's at most a narrow span,
At best a winter's day
If care could make the sunbeam wear
A brighter, warmer hue,
The evening star shine out more fair,
The blue sky look more blue,
Then I should be a graver man—
But since 'tis not the way,
Sweet Coz! I'm happy when I can,
And merry when I may!

If sighs could make us sin the less,
Perchance I were not glad—
If mourning were the sages dress,
My garb should then be sad;
But since the angel's wings are white,
And even the young saints smile—
Since virtue wears a brow of light,
And vice a robe of guile—
Since laughter is not under ban,
Nor gladness clad in gray—
Sweet Coz! I'm happy when I can,
And merry when I may!

I've seen a bishop dance and reel,
And a sinner fast and pray,
A knave at the top of Fortune's wheel,
And a good man cast away!
Wine I have seen your grave ones quaff
Might set our fleet afloat,
But I never heard a hearty laugh
From out a Villain's throat,
And I never knew a mirthful man
Make sad a young maid's day—
So Coz! I'm happy when I can,
And merry when I may!

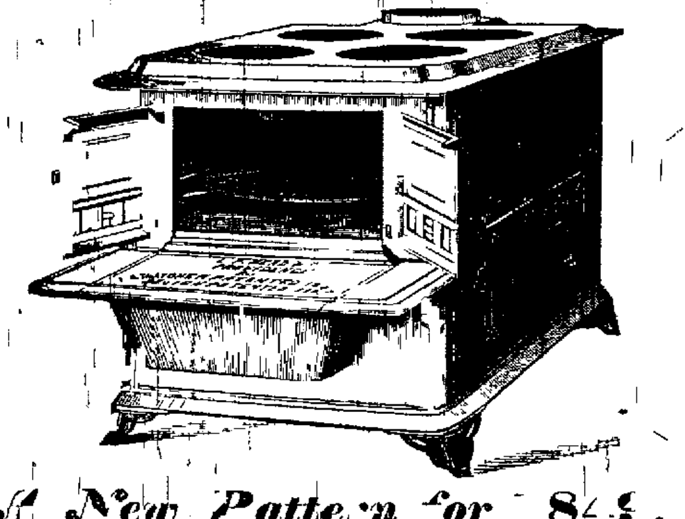
Hot Blast Air Tight
COOKING STOVE,
The Greatest Invention of the Age.



A New Pattern for 184[illegible].

AMONG a host of competitors, THIS STOVE for its superior advantages took the first premium at the American Institute, city of New York, at the Hartford County Fair Connecticut, at the Worcester Co Fair, Massachusetts, and Franklin Institute, Philadelphia.

One very important improvement in this Stove is the patent *Broiling Chamber* (see cut) by which broiling is done to perfection in from four to six minutes retaining its juices, and giving steaks the same fine flavor and pleasant twang of the best charcoal broil, (it being equally well adapted to toasting, roasting or frying) with the draft to the fire arch passing through the broiling chamber and effectually carrying off the scent which usually arises from Broiling The broiling department is always ready to be operated by the same fire required for other purposes, and no interfering with any other part of the cooking

The flues being the entire width, and passing directly around the oven, applies the heat to all parts alike The oven for baking is not equalled by any Stove in use *Warranted as above for thirty days*

Most Wonderful Cure of a man 80 years of Age

In the month of November 1846 I was attacked with inflammation in my great toe, which soon broke out into a running sore *Mortification ensued* and the first joint of my toe *came off* At this time I was under the care of the best physician in the county—every remedy had been tried but without any help The agony of pain I endured no one can imagine the disease continued to rise higher and higher until it became so bad that I was [illegible] confined to my bed. Extraordinary case of Hip and Spinal Disease

SOMERS, WESTCHESTER CO N Y Aug 27 1848

Gent—It is with sincere pleasure that I acknowledge to you the great benefit I have derived from the use of Hunt's Liniment About 6 years ago I was injured by a horse in the HIP and SPINE so badly that I could not move without the aid of crutches

I grew gradually worse for four Years although under the care of two successful Physicians who finally gave up my case as hopeless My Hip gathered and broke I continued a running sore, and I was suffering with such severe pain that I could not rest or sleep At this stage of the disease I commenced using Hunt's Liniment, which at once gave me relief. I used about 20 Bottles during the last year the sore entirely healed, I am free from pain and only use a cane in walking I think the use of your Liniment saved my life and has made me comparatively a well man My whole neighborhood can testify as to my sufferings and the cure Yours truly,

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold It cures without vomiting purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body It is one of the very best *SPRING AND SUMMER MEDICINES* ever known it not only purifies the whole system and strengthens the person but it *creates new, pure and rich blood*; a power possessed by no other medicine And in this lies the grand secret of its wonderful success—It has performed within the last five years, more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq, one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but without success at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life,*" should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness, Cramps Swelling of the Feet, Despondency, Heartburn, Vomiting Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully. very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the human face divine, as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities, is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics and the blood is thick, cold, and impure she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c., &c*, and have copied our bills and circulars which relate to the complaints of women, word for word other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs although previously they did not A number of these Mixtures Pills &c are injurious to females as they aggravate disease and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood | Three persons cured in one house is unprecedented

THREE CHILDREN.

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine They were afflicted very severely with bad sores; have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores Rheumatism, Swelling of the Feet and Limbs Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all scrofulous Diseases, Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns, Warts and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of 'All Healing Ointments' and 'Panaceas' that are now advertised as the "*most effectual*" and "*certain cures*" for all diseases indiscriminately, to which man or animals are subject

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue. But we flatter ourselves that if, forsooth, we are richly paid, and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty '*puffing of the Press*,' or the 'bought certificates' of individuals, and shall make use of them only so far as they have been, or hereafter may be entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone, will decide upon its real virtues and medicinal properties To say less, were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenney and continued its application until I had used six bottles, which entirely cured me, and I have had no return of the disease since I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure without success which cost me about forty dollars, bought 14 oz of JONATHAN McKENNEY'S SALVE, which effected an entire cure in less than two months

BANGOR June 5 1846

Mr McKenney—In going into the woods in the autumn of 1845, with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found it indeed to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts, Sprains and Bruises upon my cattle and found it equally beneficial It can truly be called the All Healing Salve

DR CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired weakened or unhealthy condition of the

NERVOUS SYSTEM

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM has been pronounced by distinguished physicians both in Europe and the United States to be the *most valuable medicinal discovery of the age*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT and CURVATURE of the SPINE, HIP COMPLAINT DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause namely

A Derangement of the Nervous System

☞ In NERVOUS COMPLAINTS Drugs and Medicines *increase the disease* for they weaken the vital energies of the already prostrated system while under the strengthening life giving vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery the exhausted patient and weakened sufferer is restored to former health strength elasticity and vigor

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by outward application in place of the usual mode of drugging and physicking the patient till exhausted [illegible]

[illegible]

[illegible] three years more than

60,000 Persons

including all ages classes and conditions among which were a large number of ladies who are peculiarly subject to Nervous Complaints have been

ENTIRELY AND PERMANENTLY CURED

when all hope of relief had been given up and every thing else been tried in vain

To illustrate the use of the GALVANIC BELT suppose the case of a person afflicted with that bane of civilization DYSPEPSIA or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken which by their action on the nerves and muscles of the stomach afford *temporary relief* but which leave the patient in a lower state and with injured faculties after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer even in the worst symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Certificates and Testimonials

From the most Respectable Sources,

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction,"

The following letter narrating one of the most remarkable events in the annals of Medical Science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and exalted reputation—

[illegible] New Jersey July 1, 1849

Dr A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND NECKLACE My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year the symptoms became worse nor could I obtain permanent relief from any course of medical treatment whatever My physicians were skillful and excellent men but here their prescriptions failed About *fourteen* years since in consequence of frequent exposure to the weather in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for years [illegible] indescribable anguish In the severer paroxysms the skill of my physicians [illegible] afforded no great relief [illegible] this relief was only temporary Further [illegible] the winter of [illegible] and in consequence of preaching a great deal in my own and in various other churches [illegible] I was [illegible] by the Bronchitis which soon became so severe as to require an immediate suspension of my labors *My nervous system was thoroughly prostrated* and as my Bronchitis became worse so also did my Dyspepsia and Rheumatic affection thus evincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indescribable and I [illegible] respect other than being entirely [illegible] aside from the discharge of those duties [illegible] perform [illegible] labors in which my [illegible]

But reasoning from effect to cause I concluded that the *Nervous System* must be reached before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole pharmacopœia there seemed to be no remedy [illegible] which could reach and reach upon my Nervous System every thing that I had tried [illegible] had completely failed At last I was led by my friends to examine your inventions and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE with the MAGNETIC FLUID This was in June 1846 TO MY GREAT ASTONISHMENT IN TWO DAYS MY DYSPEPSIA HAD GONE IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS NOR HAVE I EVER OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted I could fill a sheet of paper with the details of particulars but I can now only furnish the brief abstract My Dyspepsia has *never returned*, the Rheumatism once in a while visits me but not severely and is easily arrested, and is manifestly being driven from its hold upon my system and my Bronchial affection *is entirely cured* Such is the wonderful and happy results of the experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them with HAPPY RESULTS I BELIEVE IN EVERY CASE

I am, dear sir very respectfully yours
